

# FAST and FIERY™

## GAME DESCRIPTIONS

ProTec Games' Fast and Fiery slot game combines the thrills and excitement of auto racing in a video slot game with five reels, fourteen animated symbols, two bonus games and one free spin feature. The player watches himself behind the steering wheel of a racing car in the Racing Bonus and celebrates his success by opening champagne bottles in the Champagne Bonus. The player also can win multiple free spins by hitting the Free Spin Feature.

## TURN-KEY PACKAGE

All game packages include Base Screen, Bonus Screen, Symbols, Animations, Bonus Simulation files, Glass Design, Sound package, Par Sheets and documentation to implement the game on your platform. All game elements have been completed in an English version and are ready for immediate adaptation on the platform. Localization is available.

## RACING BONUS

The Racing Bonus is activated when three, four, or five trigger symbols appear left to right consecutively on an active payline. The player selects one of five racing cars, then the cars start racing. The game's 3-D look makes the race even more realistic when the cars go around curves, pass each other and zoom to the finish line. The player earns awards based on his car's finishing position.

## CHAMPAGNE BONUS

The Champagne Bonus is activated when three, four, or five trigger symbols appear left to right consecutively on an active payline. The player is prompted to select one of five champagne bottles. Once the bottle is chosen, the cork pops up and the champagne gushes out. A randomly assigned award is given.

## FREE SPIN FEATURE

The Free Spin Feature is activated when two trigger symbols appear anywhere on the first and fifth reels. The trigger symbols turn into numbers that reveal the number of free spins the player gets and the multiplier that applies to the player's winning awards.
