

# HI-LOW PAI GOW POKER

Hi-Low Pai Gow Poker is a casino table game owned by FortuneTeller Gaming Inc. ProTec Games, Inc. developed the electronic version (simulator) for this game. Hi-Low Pai Gow Poker is derivative of the Standard Pai Gow Poker Game. The New variation would see the Standard Pai Gow Poker Game single wager format modified to include two additional wagers for players to choose from (three in total). It creates a game with 3 separate "Main Wager" opportunities for players.
